

Welcome To Advanced Stone Restoration

Advanced Stone Restoration takes pride in beautifying your natural stone. We are a locally owned and operated company in Hawaii and have been in the restoration & cleaning business since 1991.

Whether you have marble , granite , travertine , limestone, quartzite , terrazzo , or slate , we can grind, hone, polish, or anything in between. We use the most advanced methods of resurfacing. We can help you increase the value of your residential or commercial investments.

Advanced Stone Restoration also specializes in the following fields:

- chip repairs - stain removal
- scratch & etch removal - seam repairs
- refilling of travertine - recoloring grout
- color enhancing - crack repairs
- sealing - cleaning

Many service companies out there offer a cheap and "quick fix" using crystallization methods or a topical coating. The results leave the stone damaged, discolored, or dull after a short period of time. This leaves you, the homeowner or contractor having to go through the process repeatedly to maintain the shine.

No dust, No wax, No crystallizer, No topical or any other coating. This is our mission statement and that's what separates us from the competition. Our specialists use the finest diamond abrasives and craftsmanship to repair and polish your Marble, Granite, Limestone, Travertine, and Terrazzo back to its factory finish.
